For Emergency Authority to)
Discontinue the Provision of) **APPLICATION**
Local Exchange Service)

EMERGENCY APPLICATION
TO DISCONTINUE LOCAL EXCHANGE SERVICE

Pursuant to Section R14-2-1107 of the Arizona Administrative Code, Teligent Services, Inc. ("Teligent") hereby files this emergency application for authority to discontinue the provision of local exchange service to its business customers in the Phoenix market area.¹ In its Order dated October 7, 1998, the Arizona Commission ("ACC" or "Commission") granted Teligent a certificate to provide facilities-based and resold competitive local exchange and intrastate toll services throughout Arizona.²

¹ Rule 14-2-1007 does not appear to contemplate the need to discontinue or abandon the provision of local exchange services in the event of bankruptcy, however, Teligent is filing the instant application should the Commission find that this rule is indeed applicable under these unique circumstances. A.A.C. § R14-2-1107 (2001).

² See Application of Microwave Services, Inc. and Teligent, Inc. for an Extension of a Certificate of Convenience and Necessity to Provide Intrastate Competitive Telecommunications Services and Petition for Competitive Classification of Proposed Services, and Transfer of Existing Certificate, *Opinion and Order*, Docket No. T-03186A-96-0558, Decision No. 61155, dated October 7, 1998; Joint Application of Teligent, Inc. and Teligent Services, Inc. to Transfer Teligent, Inc.'s Certificate of Convenience and Necessity to Provide Intrastate Telecommunications Services to its subsidiary, Teligent Services, Inc., Order, Docket Nos. T-03641A-99-0392 and T-03761A-99-0392, Decision No. 62233, dated January 12, 2000.

Teligent hereby seeks authority to discontinue the provision of local exchange service on 30 days' notice to business customers in this market for the near term.³

I. Introduction

As the Commission is aware, Teligent is currently in Chapter 11 and has been restructuring its operations to obtain funding from investors and/or purchasers to keep its business operational. During this process, its creditors have been making funds available in two to four week increments to continue Teligent's operations. While progress has been made in Teligent's restructuring efforts, sufficient interest from third-party investors in funding Teligent's current facilities-based retail local and Internet service operations has not been forthcoming. As a result, Teligent has only very limited financial resources left and its creditors have indicated that they are almost certainly unwilling to make additional funds available to continue these local operations. Teligent's current financial resources enable its Phoenix operations to continue only for the next 30 days, and no further funding for these operations will likely be forthcoming. Therefore, it is critical that Teligent be permitted to inform its customers that service will no longer be available after December 15, as explained in more detail herein.

II. Reason for the Proposed Discontinuance

As the Commission is aware, on May 21, 2001, Teligent filed a petition for protection under Chapter 11 of the U.S. Bankruptcy Code in order to reorganize its

³ Teligent does not currently offer residential service to customers. Thus, no residential customers will be affected by the approval of this application. Approximately 174 local customers in the state will be affected by this discontinuance.

operations and financial structure.⁴ At that time, it was Teligent's intent to reorganize its operations in bankruptcy in order to enable the uninterrupted provision of service to customers under its operating authority in the state of Arizona. Specifically, Chapter 11 status enables Teligent to reorganize its debt, capital structure and operations under court supervision to attract a buyer or strategic investor that will commit the funding necessary in order to position the company to regain the financial strength it requires to compete effectively in the marketplace and to bring the benefits of competition to consumers.

On September 6, 2001, Teligent Services, Inc., together with TAC License Corp., ("TAC") filed for Commission approval of a proposed plan to consummate a Chapter 11 "Re-Emergence" plan that would permit Teligent's core telecommunications business operations, which include, among other services, retail facilities-based local and Internet services, to emerge from bankruptcy and continue through TAC.⁵ Under the proposed transaction, Teligent would assign its operations and assets, including its operating authorities to TAC, a corporation newly-formed to acquire the domestic core telecommunications business of Teligent and to continue its operations on an uninterrupted basis. The plan contemplated that institutional investors, together with certain senior management of Teligent, would fund TAC to enable it to operate the core domestic telecommunications operations of Teligent pursuant to Teligent's certificates, which were to be transferred to TAC. The associated equipment, personnel and other

⁴ See Case No. 01-12974 (SMB) (Bankr. S.D.N.Y.) Teligent notified the CPUC of its Chapter 11 filing via letter dated that same day.

⁵ See Emergency Joint Application of Teligent Services, Inc. and TAC License Corp. for Grant of the Authority Necessary to Consummate a Chapter 11 "Re-Emergence" Plan, *Application*, Docket No. T-03761A-01-0711, filed September 6, 2001 ("Re-Emergence Plan application"). This application is still pending. See note 8 for further information about the status of the "Re-Emergence" Plan.

related assets necessary to continue these operations, including those in Arizona, were also to be acquired by TAC.⁶

As Teligent indicated in its "Re-Emergence Plan application" filed with the Commission, this plan was subject to the completion of TAC's financing, the conclusion of a Chapter 11 bankruptcy auction, and approval by the bankruptcy court through issuance of a Sale Order to TAC.⁷ Unfortunately, due in large part to the events which occurred in the United States on September 11, 2001 and thereafter, and their impact on the ensuing financial markets, which were already in a volatile state, TAC has, thus far, been unable to complete the financing necessary to consummate the "Re-Emergence" Plan as contemplated. Its fund raising efforts failed to generate sufficient interest in Teligent's current retail facilities-based local and Internet business necessary to keep these operations going.⁸ As Teligent explained to the Commission when it filed its Chapter 11 "Re-Emergence" Plan application in September 2001, it had extremely limited funds available to maintain its current operations and was striving to consummate the TAC transaction before it exhausted all of its remaining funds. The TAC transaction is not currently able to close and by December 15, 2001, Teligent will most assuredly no longer have the financial resources necessary to sustain facilities-based local exchange

⁶ *Id.*

⁷ The Chapter 11 bankruptcy auction was concluded on October 29, 2001, and no other bids for the Teligent assets or operations were received.

⁸ Teligent is still diligently working with potential investors to enable a "Re-Emergence" plan, through TAC. Nevertheless, because of the delay in consummating a transaction with TAC thus far, the on-going Teligent operations that will ultimately be transferred to TAC (if a transaction is eventually consummated) will be Teligent's current facilities-based fixed wireless private line, transport and other wholesale operations as well as its resale service business.

and Internet services in Phoenix. Furthermore, it has no alternative source of funding to pursue.

III. Notice of Discontinuance

Throughout its Chapter 11 process, Teligent has endeavored to keep its customers informed about the impact of its status on their service. When Teligent filed its Chapter 11 petition, it sent each of its customers a letter on May 21, 2001, indicating in that letter that if their service was ultimately affected they would receive at least 30 days' notice. In a subsequent mailing, Teligent also notified its customers of its Federal Communications Commission (FCC) application for authority to discontinue services in each of its markets should it be necessary throughout the course of this Chapter 11 process.⁹ Again, customers were assured they would receive at least 30 days' notice.

In addition to these notices, in order to ensure that affected customers receive sufficient, yet regulatory compliant, notice that Teligent will no longer have the financial means necessary to support the operations and facilities necessary for the provision of their services beyond December 15, 2001, Teligent is sending each of its affected customers a letter indicating that it has filed this application and that, subject to Commission approval, it will need to discontinue the provision of their service by that date.¹⁰

⁹ See Comments Invited on Teligent, Inc. and its Domestic Subsidiaries' Application to Discontinue Domestic Telecommunications Services, *Public Notice*, NSD File No. W-P-D-514, released August 24, 2001.

¹⁰ A copy of the notice of possible service discontinuance dated November 13, 2001, is attached for your information. Also attached is a verification statement indicating that all affected customers have been notified of the proposed discontinuance and that all affected customers will have access to an alternative local exchange provider. See A.C.C. § R14-2-1107.

As stated in its prior discontinuance application, Teligent is aware that it cannot discontinue its provision of local exchange services until the Commission has granted this authority. Teligent has informed its customers of this fact in its notification letter of pending discontinuance. However, in order to *ensure* that affected customers do not delay in seeking an alternative service provider to whom to transition their services prior to when Teligent will no longer have facilities or operations to provide the service, Teligent respectfully requests expedited treatment of this application on an *ex parte* basis.¹¹ Failure on the part of Teligent's customers to take immediate action to obtain alternative service (pending a formal decision by the Commission that the discontinuance is indeed authorized) could result in a loss of service that Teligent is unable to prevent.

Teligent submits that because of the prior correspondences with its customers related to Chapter 11, and the actions it has had to take with respect to other Arizona markets, its customers should not be surprised or caught off guard by Teligent's need to discontinue service at this time. Indeed, customers currently affected by Teligent's proposed service discontinuance will have received at least three (3) separate written notices prior to any actual service discontinuance. As referenced previously, on or about May 21, 2001, Teligent sent a letter to every one of its customers, including its Arizona customers, notifying them of the Chapter 11 filing and advising them that if any services that Teligent currently provided to them were to be subsequently affected, they would receive at least 30 days' notice to find another service provider. On or about November

¹¹ Unless the Commission indicates its intent to enable Teligent to discontinue service by December 15, 2001, Teligent will most assuredly find itself simply unable to continue to provide the service and its customers will be left stranded.

13, 2001, a second letter is to be mailed to Teligent's local exchange and Internet service customers in the Phoenix market area notifying them of Teligent's need to discontinue these services and of this application to the Commission seeking authorization to discontinue these services. In addition, as soon as we learn from the Commission that we will be able to cease the provision of local service by the December 15th date, Teligent will mail a final reminder notice to affected customers to ensure that these customers are well-aware of the disconnection date, are taking appropriate steps to obtain new service, and have the information necessary to contact Teligent customer service should they require any further guidance or have any questions regarding transitioning to an alternative service provider.

Consistent with the representations made in the notification letters discussed above, Teligent has been diligently working with affected customers to help them transition to new service providers and will continue to do so. Once Teligent's customers identify an alternative service provider, Teligent will work with that customer and its new service provider to ensure that a seamless transition with little or no disruption in service to that customer occurs. Teligent has been forced to discontinue certain services to specific locations in many of its markets throughout the country over the past several months and in every case where customers have sought Teligent's assistance with their transition, this assistance has been provided successfully.

As part of that effort, Teligent has had experience working with other carriers, including incumbent local exchange carriers and competitive local exchange carriers to expedite order provisioning for its customers where necessary. For example, Teligent

recently worked with carriers such as Cavalier Telephone Company, XO Communications, ALLTEL, KMC Telecom, Adelphia Business Solutions, Mpower, the incumbent local carrier and others to ensure that customers could transition their service within the requisite timeframe. For the most part, Teligent is finding other carriers, particularly the competitive local exchange carriers, to be cooperative and willing to assist these customers in obtaining an alternative carrier prior to the scheduled disconnect date.¹²

Teligent has also established a special internal process to enable it to process local service requests ("LSRs") to port out its customer's numbers on an expedited basis and to work with the carrier submitting the LSR to correct any deficiencies in the LSR immediately to enable it to be processed without further delay. Teligent's ability to assist in the seamless transition of its customers' service to another carrier will be enhanced if the Commission encourages any certificated Arizona carrier who will be picking up Teligent's customers to use their best efforts to expedite the provision of such alternative service to the maximum extent possible. Because Teligent's local service is facilities-based, Teligent cannot simply "default" its customers to the incumbent or another carrier, an option that is otherwise available to resale carriers. Thus, Teligent will need to rely on the cooperation of the customer's chosen alternative carrier to facilitate turning up the customer's new service on a timely basis.

¹² Consistent with Section R14-2-1107, attached please find a list of alternative utilities providing the same or similar services within the affected geographic area.

IV. Certification Information

In spite of its need to discontinue these services at this time, Teligent *is not* seeking to cancel or modify its CPCN. Indeed, Teligent intends to continue to provide and offer its other facilities-based fixed wireless services, including private line, transport, and wholesale services, in addition to resold services in Arizona. Moreover, Teligent remains hopeful that at the conclusion of its Chapter 11 reorganization process, TAC will be in a position to commence the rebuilding of these local and Internet services networks in Arizona markets in a more efficient and cost-effective manner so that customers in these markets can once again receive these high quality, lower cost competitive telecommunications services.

As requested by Section R14-2-1107, Teligent informs that Commission that it does not, as a matter of course, collect deposits from customers pursuant to R14-2-503(B).¹³ In the rare event that any deposits have been collected or retained, they will be returned to customers consistent with the Commission's rules regarding the return of deposits to customers.

¹³

In addition, Teligent does not offer any pre-paid telecommunications services.

V. Request for Waiver

Teligent also respectfully requests a waiver of Section R14-2-1107(B) should the Commission find this section applicable to a discontinuance resulting from a bankruptcy situation. This section requires that a telecommunications company filing an application to discontinue local exchange service publish a legal notice of the application in all counties affected by the application. Due to Teligent's current financial situation and Chapter 11 status, the cost of compliance with the publication requirement would be unduly burdensome under the circumstances. Moreover, the Commission need not be concerned about customers receiving notice of the proposed discontinuance. As described above, all of Teligent's Arizona customers of record will receive an actual written notice of the proposed discontinuance by overnight courier and Teligent is prepared to provide any additional notice the Commission may require as a condition to waiver of this publication requirement.

WHEREFORE, in view of the foregoing, Teligent hereby respectfully requests that the Commission approve Teligent's application for emergency authority to discontinue the provision of local exchange service in the Phoenix market area. In light of Teligent's inability to continue these operations beyond December 15, 2001, Teligent respectfully requests expedited consideration of its application. Should the Commission need any additional information in order to process this application, please do not hesitate to contact one of the undersigned as soon as possible.

Respectfully submitted,

Subject: **DISCONTINUANCE OF SERVICE**

Dear <Customer Contact>:

As you are aware, on May 21, 2001, Teligent filed a petition for protection under Chapter 11 of the U.S. Bankruptcy Code in order to reorganize its operations and financial structure. As part of this reorganization, we have had to dramatically restructure certain market operations, which unfortunately impacts the availability of certain facilities and services.

This letter is to inform you that on November 13, 2001, Teligent filed an application with the Arizona Corporation Commission ("Commission") requesting approval on an emergency basis to discontinue providing local service to its customers in the Phoenix market area. Teligent has sought authority to discontinue local service no later than December 15, 2001.

The Commission must first approve the discontinuance of local service to our customers, as well as the date when this service can be discontinued. In light of Teligent's Chapter 11 status, we expect that the Commission will approve this application, although neither such approval nor the date of discontinuance is certain. Nevertheless, we wanted to provide this information to you as soon as possible

If you subscribe to any Teligent Internet service(s), Teligent must also discontinue your Internet service(s) (including Dedicated Internet Access (DIA), Digital Subscriber Line (DSL) services, TeligentHost, and Email). In accordance with Section 4 of the General Terms and Conditions governing your service, by this letter Teligent is providing 30 days' notice that your Internet service(s) will be disconnected as of December 15 as well. We have enclosed a checklist to assist you in your transition process to a new ISP.

BECAUSE WE WILL NOT BE ABLE TO FUND OUR FACILITIES-BASED LOCAL AND INTERNET OPERATIONS BEYOND DECEMBER 15, 2001, WE ADVISE YOU TO SEEK ALTERNATIVE LOCAL EXCHANGE AND/OR INTERNET SERVICE(S) FROM ANOTHER PROVIDER IMMEDIATELY AS WE CANNOT ENSURE THE CONTINUATION OF YOUR TELIGENT SERVICES AFTER 30 DAYS FROM THIS NOTICE DATE. ALSO, ANY ORDERS CURRENTLY PENDING FOR THESE TELIGENT SERVICES WILL NOT BE FULFILLED.

Existing Long Distance Customers

If you currently have Teligent long distance service, these developments will not affect your long distance (LD) service if you choose to keep this service. As a valued customer, you will still continue to receive the same competitive long distance rates that you currently enjoy, as well as

have access to Teligent's 24x7x365 Customer Service, and continue to enjoy all the plan features you currently have.

Please follow these simple steps to keep your same great LD rates with Teligent:

1. Contact the local service provider of your choice to obtain local service.
2. When the local provider asks who you would like to carry your LD, ask for Teligent.
3. The local provider then will ask for Teligent's Carrier Identification Code (CIC). Please respond with: 0444.
4. Call Teligent Customer Services at 1-888-411-1175 to confirm your decision to keep Teligent as your long distance provider.

Pending Orders for Long Distance Service

If you have a pending Teligent order that includes long distance service, although we will not be able to fulfill any orders for local and/or Internet services, we will be able to proceed with your LD service, at the same rates you were promised in your original contract, should you desire.

However, in order to proceed with your pending LD service order, you must contact us as described below.

1. Please call Teligent Customer Services at 1-888-411-1175 to confirm your decision to sign up for Teligent LD service.
2. Contact the local service provider of your choice to obtain local service, or contact your current local provider to advise you are switching long distance carriers.
3. When the local provider asks who you would like to carry your LD, ask for Teligent.
4. The local provider then will ask for Teligent's Carrier Identification (CIC). Please respond with : 0444.

If you have any questions, please contact Teligent Customer Services at 1-888-411-1175, 24 hours a day, 7 days a week, but please do not disregard this notice.

Sincerely,

Teligent Customer Services
